THE PRINCIPLES OF THE REPEAL PARTY THEIR JUSTICE-THE NECESSITY OF THER PRACTICAL APPLICATION TO THE SECUR-ITY OF OUR COUNTRY.

Perhaps in the daily discussion of the views and motives which influence the Repeal Party it would not be amiss to recur frequently to first principles." It has been urged against us that we were

sellish, narrow-minded and bigoted-that we were disposed to invade the sacred prerogatives with which our country has invested naturalized itizens, &cc.

How does these charges tally with the real notives which actuate us?

We believe sincerely that the processes of indiscriminate immigration and nuturalization are calculated to impair the moral tone of society in our country, to lower the standard of the Amercan people, and in time to endanger the integrity of our institutions.

We petition Congress to repeal the naturalization laws, leaving it to the wisdom of that body to establish such protective provisions as will preserve our country from the curse of a large unrepresented population.

We do not ask Congress to make those changes without mature deliberation, nor is it to be supposed that the assembled wisdom of the nation le would act with precipitancy in the accomplishment of a change of so important a portion of he former policy of our Government.

We do not expect nor desire that Congress hays 3. should suddenly cut off, by hasty legistation, the mamense number of foreigners now in the United freshet; States from the rights of citizenship, and leave when the Board adjourned door open for the future clamorous outcries of discontented thousands, who, let the causes be what they may, would as eri that a prospect of becoming American citizens was the only alturement which seduced them hither.

RESOLUTION instructing the joint committee appoint-ed to represent the interest of the Corporation before Congress to remonstrate against the passage by Con gress of any bill surrendering to the State of Mary-land the stock held by this Corporation in the Chesa-

peake and Ohio Canal.

Whereas the Executive of Maryland, in compliance with an act of the Legislature of that State, has made an application to the President of the United States for the urrender to Maryland of the stock belonging to the Corporation of Washington in the Chesaneake and Ohio Canal, without any equivalent, and without consulting the corporate authorities on the subject; and whereas the said stock has cost this Corporation about four hundred and forty eight thousand dollars over and above the original inal subscription, on which an interest is now regularly paid : and whereas the State of Maryland has occasion by her acts a delay at the Point of Rocks of at least two years in the completion of the said canal, and increased the Corporation debt upwards of one hundred and twenty thousand dollars in consequence of that delay, in addition to the loss of the commercial and other advantages which might have resulted to the District if this delay had not been produced by the said State; and whereas the said Governor, in his communication to the President of the United States of the second of December, eighteen bundred and thirty-nine, asserts that "Washington, Georgetown, and Alexandria have paid nothing on account of the stock surrendered by them to the United States, and as stockholders have nothing to lose or gain by its sur-render to Mayland;" which declaration, so far as it relates to Washington, is founded in a misapprehension the fact : and whereas the said State has made herself a avored stockholder by requiring the interest to be paid on her stock in preference to that of all other stockholders: therefore,
